The background features a yellow-to-purple gradient. In the corners, there are decorative circuit-like patterns consisting of blue lines and small circles.

# TABLE OF REWARDS

## 26/03/2021

As you know, the BFG token is now unique. So statistics of old BFG can't be seen anymore. The biggest news is that you can claim rewards for ETH and BNB earned !

After the update of rewards, it's a big difference for those who bet in ETH and BNB. I took all statistics about your gambles in ETH and BNB since you began on Betfury.

Look the yellow column to know how PEDS you earned for moment 😊

About Bob and LordZero, you probably changed your name or quit betfury because I can't find you in my referrals list.  
Send me pm to to change that, thanks.

Don't forget to contact me to claim reward, I'm never ingame so send me email to [cyriaque64320@orange.fr](mailto:cyriaque64320@orange.fr) to fix a time for delivery😊
